

MEDICAL AESTHETICS

Botox & Dysport

\$17/unit

A prescription medicine injected into muscles to temporarily improve moderate to severe facial lines and wrinkles, as well as reduce tension headaches, jaw clenching and grinding.

YAG Laser Treatments

\$400 and up

YAG laser can be utilized for many different treatments including spider veins, hair removal, facial rejuvenation, toe nail fungus, warts, and much more. Consult with your medical provider to determine if this type of treatment is right for your concerns.

IPL Facial Rejuvenation (aka Photofacial)

\$600 and up

IPL targets areas of hyperpigmentation and vascularity to reverse and remove most of the visible damage caused by repeated sun exposure, most commonly seen on the face, hands, chest and forearms. The procedure also triggers collagen and elastin production which helps regenerate new healthy skin.

RF Body Contouring

\$600 and up

Utilizing radiofrequency energy waves and vacuum, this non-invasive, non-surgical body sculpting technique that heats and destroys unwanted fat cells and breaks up cellulite, while tightening skin. Recommended 8-12 weekly treatments.

INFINI RF Microneedling

\$2000

Radiofrequency microneedling is a form of controlled skin injury, utilizing tiny needles and RF waves to rejuvenate and tighten loose and aging skin. The damage stimulates collagen and elastin and the growth of healthy new skin, which can improve wrinkles, acne scars, and skin laxity.

Microneedling

\$450 and up

Also known as collagen induction therapy, microneedling involves microscopic punctures of the skin with sterile needles that stimulates the skin's own healing powers by triggering enhanced collagen and elastin production, thus dramatically improving the skin's appearance. Exponentiate results by adding PRP to this treatment. (+ \$800)

Dermal Fillers

\$800-1200

Mostly composed of hyaluronic acid, dermal fillers come in a range of types to address all types of aesthetic applications including lip and cheekbone augmentation, jawline enhancement, volume loss replacement, and deep wrinkle correction. Consult with your provider to see which dermal filler is best for your specific concerns.

Sculptra

\$1500

Composed of poly-L-lactic acid, sculptra is a biocompatible synthetic substance that stimulates the body's own collagen production to restore lost facial volume and treat deep lines, creases, and folds to give a more youthful experience.

RF Skin Tightening

\$500 and up

A non-surgical method of tightening skin, radiofrequency therapy utilizes energy waves to heat the deep dermal layers, resulting in collagen and elastin production and tighter, firmer, rejuvenated skin.

Fraxel Skin Resurfacing by Viora

\$1800 and up

This revolutionary skin resurfacing treatment is painless, has almost no downtime and is suitable for all skin types. Fraxel resurfacing is a proven method to reduce fine lines, age spots, uneven skin tone and texture, post acne scarring and other blemishes. Expediate healing and potentiate results with the addition of a PRP treatment. (+ \$800)

Laser Hair Removal

\$400-800

LHR utilizes a concentrated beam of light which targets the pigment in unwanted hair follicles, resulting in long term hair reduction in treated areas.
